# N-ABLE™ with LAPIS-IT

Cove Data Protection™ for Microsoft 365

A feature available with Cove Data Protection

Cove Data Protection™ for Microsoft 365™ is designed to help you protect Microsoft 365 users from data loss. Cove for Microsoft 365 helps you retain and restore Exchange™, OneDrive®, and SharePoint® data—and you can do it from the same web-based dashboard you use to protect servers, workstations, and critical business documents.

Protect Microsoft 365 from the same dashboard as servers and workstations

- Save administrative time every day by checking status and managing backups in one place

- Improve backup management efficiency with at-a-glance status views and one-click drilldown reports

- Show backup status across groups, devices, and data types with a clean, web-based console

Cloud data storage included

- Cloud backup storage is included in your price. Keep your data in region with data centers worldwide

Retain and recover customer data

- Retain and recover Microsoft 365 Exchange email, calendars, and contacts for seven years

- Retain and recover Microsoft 365 OneDrive and SharePoint data and permissions for seven years

- Avoid backing up suspicious files. Cove for Microsoft 365 works with the Microsoft Windows Defender anti-malware engine to guard against restoring potential malware into your production environment

Recover as needed, independent of Microsoft support

- Accidental or malicious deletions can spell trouble for businesses reliant on Microsoft 365. Equip yourself to respond to requests without reliance upon Microsoft support responsiveness

- Back up Microsoft 365 Exchange up to six times a day, OneDrive up to four times a day

- Back up Microsoft 365 SharePoint (including Teams files and data stored in SharePoint) up to four times a day. Custom and sub-libraries are backed up and can be recovered individually as needed

Extend and modernize your data protection

- Keep data protection up-to-date with Microsoft 365 adoption and be ready to respond to data loss

- Continue to add value as SaaS application usage evolves

Please note that Cove Data Protection for Microsoft 365 is currently available only in the standalone and N-central® integrated versions.

*Fair use policy includes up to 1TB of Microsoft 365 data per unique end user.

About Lapis IT BV

Lapis IT BV is a Managed Service Provider partner of N-able. We provide support to customers whom are aware of the cost and damage of downtime, data recovery, data loss or reputation damage.
